

Long Gun Staging Rack

Bill of Materials:

2 - 1" x 8" x 96". Treated.

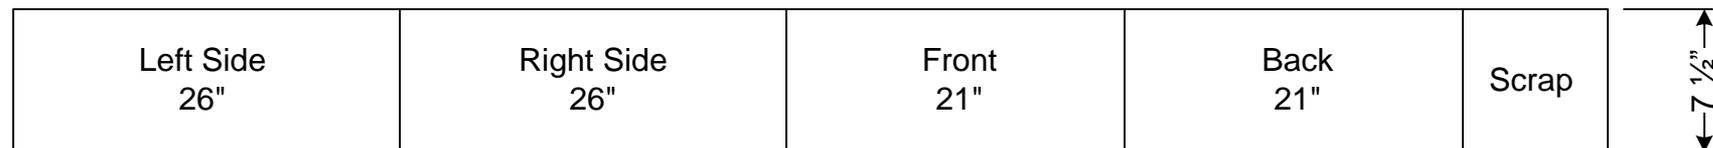

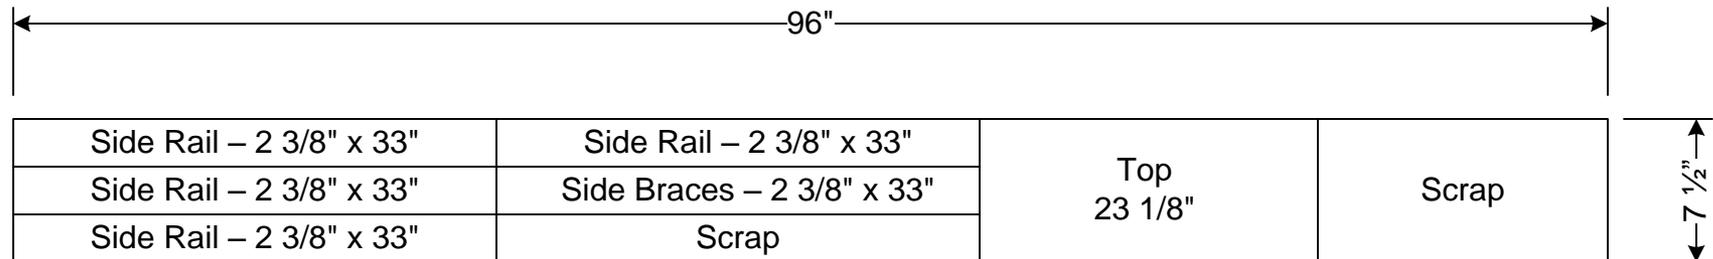

1 1/2" patio deck screws

3" patio deck screws

Instructions:

Cut as indicated below.

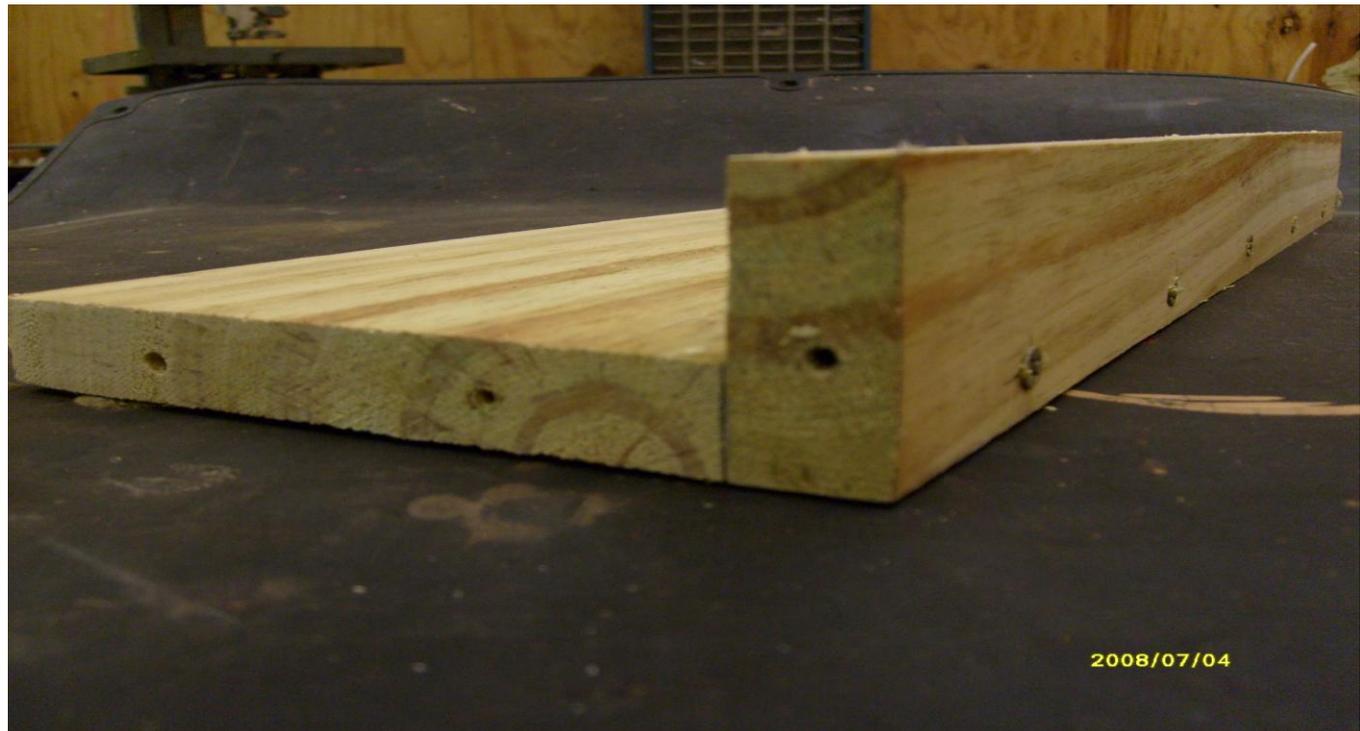

Side Rails and Side Braces. The 2 3/8" width will depend on the actual width of the board. Board width divided by 3 and allowing for cutting blade width.

Instructions:

Rip the Front to 5 ¼" in width. Finished board will be 5 ¼" x 21". This piece is now called Front Big, the smaller piece is Front Small. Drill holes for the screws in the Front Small. Screw both pieces together as shown below using 1 ½" screws.

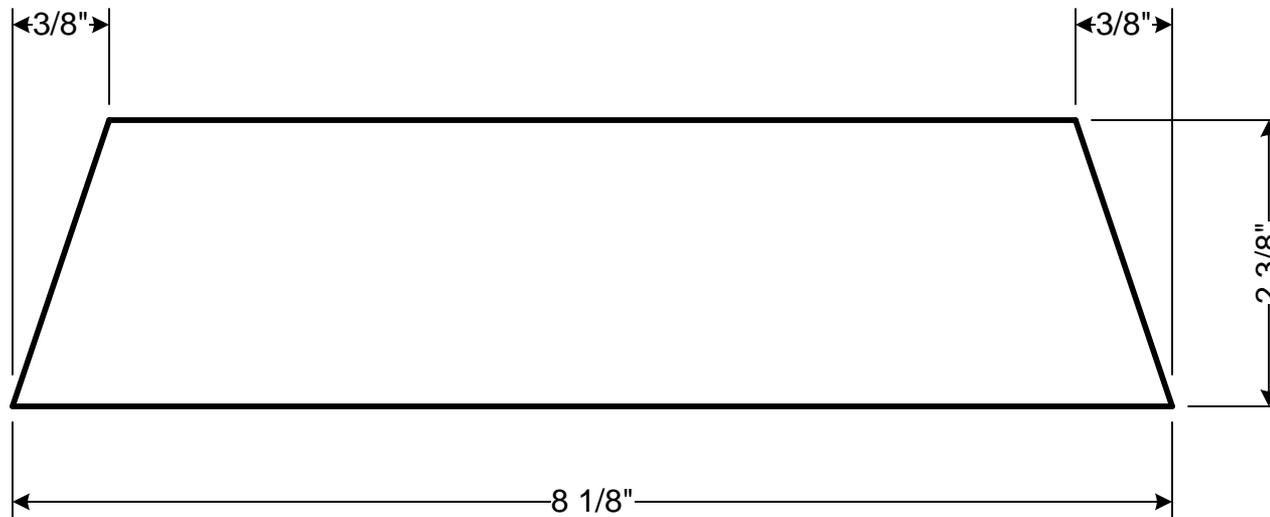

Do the same for the Back.

2008/07/04

Instructions:

Side Braces. Cut two as shown below.

Instructions:

Measure 1 ½" from the top inside on both ends of the Right Side and Left Side.

Place the Front/Rear assemblies on the Right and Left Sides as shown and trace around the Front/Rear assemblies with pencil.

Drill screw holes centered in penciled tracings.

Instructions:

Using 1 ½" screws attached the Front and Back assemblies to the Right Side and Left Side.

Instructions:

Temporarily clamp Side Rails and Top Brace as shown. Side Rail should be flush with top of Top Brace.

Pencil a mark at center line of Top Brace and Side. Using these center line pencil marks and a level bring the pieces into alignment. Drill screw holes in Side and Top Brace. Fasten with 1 1/2" screws.

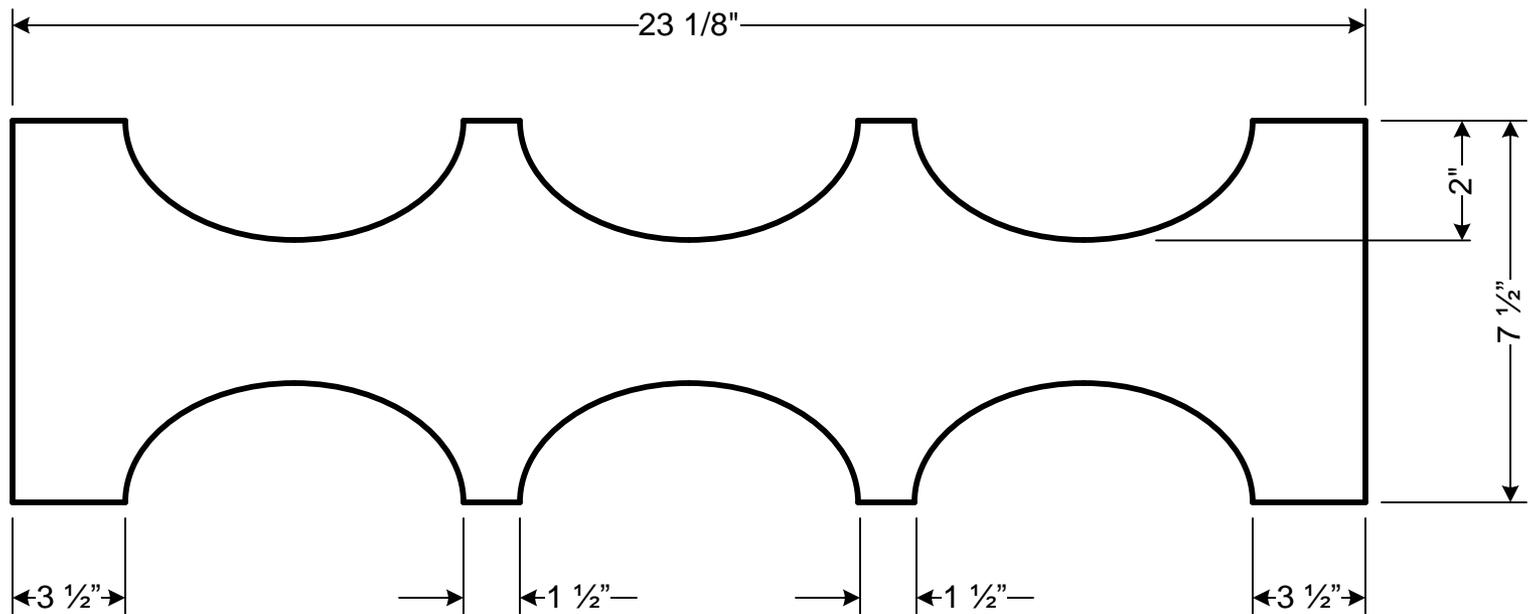

Instructions:

Top. Layout and cut as shown below.

Quart paint can is perfect for the curves.

Optional. Use Router to corner round top edges.

Instructions:

Attach Top to Side Braces with 1 ½" screws and 3" screws for Side Rails

Instructions: Project finished, Long Gun Rack. Paint or leave natural.
